Forward thinking switch design for forward thinking people

- Описание

Originally created as a **control terminal** for home control system, this hugely popular award-winning series is now redefining wall decoration with a superb full range of **switches** and **sockets**. Unconventional horizontal orientations, Groundbreaking use of LED, First-to-market white-on-white fluorescent locaters, Cyber-chic silver and grey tones, 2-wire retrofit scene control functionality... They're just a few of the many reasons why NEO switches are the forward-looking choice for far-sighted metropolitans.

NEO C-Metro

- Forward thinking design for forward thinking people. NEO C-Metro has distinctive horizontal operation design and it is the first mechanical switch with blue and white LED locator.

NEO-X

- Forward thinking design retrofit RF lighting control system. NEO-X is a 2-wire retrofit lighting control system which can replace mechanical switches without rewiring, enable scene control instantly.

NEO C-Bus

- Switch-like control devices for the C-Bus interoperable system that can be used to manage lighting, electrical equipments, audiovisual equipments and other electronic and electrical systems.

NEO ELV+

- Extra-low-voltage control wallplate with RJ45 socket to provide easy and secure connection to the latest hotel management systems.

• Преимущества

- Award-winning **switch** range
- Distinctive horizontal operation design
- Futuristic styling, LED locator and indicator
- Comprehensive range including electro-mechanical switches, scene control systems, control devices for interoperable system, and products for specialized applications – all in an aesthetic consistency that allows coordinated mix-and-match of functionalities within a space.
- Available in grey-silver and white-on-white color

• Применение

- Residential, commercial and hotel applications
- British, American and Australian installations
- Flush- or surface-mounted installations
